Certifications

Project management professional (PMP) | Agile certified practitioner | PSPO | PSM | AWS Solution architect associate | ISC2 Cybersecurity certified

PROFESSIONAL EXPERIENCE

Senior Project Manager | Wargaming (Product Company)

June 2023 – Present | Warsaw, Poland

- Leading cross-functional delivery streams within a large-scale game development initiative involving multiple engineering teams.
- Driving cross-team dependency management and prerelease orchestration across multiple engineering streams, ensuring roadmap alignment, milestone predictability, and proactive risk mitigation.
- Managed preparation and execution of large-scale public playtests with an audience of 50,000+ players.
- Established a structured engine upgrade process, enabling recurring updates to the latest supported engine versions and reducing long-term technical debt.
- Increased artifact distribution speed by 20%, improving CI/CD throughput and reducing integration delays.
- Raised automated test stability to 85%+, strengthening release confidence and minimizing regression risks.

Senior Project Manager | Softeq (IT Outsourcing)

April 2021 – June 2023 | Vilnius, Lithuania

- Scaled team from 3 to 20 engineers across 3 concurrent projects.
- Secured and delivered a \$2M contract (renewed twice).
- Delivered a PoC within 1.5 months, leading to a \$400K follow-up contract.
- Re-estimated mismanaged projects, preventing losses and saving \$500K+.
- Acted as primary client escalation point and managed C-level stakeholder communication.

Project Manager | HQ Software (IT Outsourcing)

May 2019 – March 2021

- Prepared 30+ RFX proposals with a 30%+ win conversion rate.
- Stabilized a failing mobile product, increasing rating from 1.8 to 3.5 (App Store & Google Play).
- Improved product quality and performance, contributing to a \$1M+ business exit.

Project Manager | System Technologies (Product Company)

March 2018 – March 2019

- Led development of EV charging PoC application.
- Reduced online acquiring costs by 40% via banking provider migration.
- Scaled public transport ticketing app to 2.5M+ users in new regions.
- Increased average fuel app transaction value by 15% through feature expansion.

Project Manager | Andersen Lab (IT Outsourcing)

September 2017 – March 2018

- Scaled delivery team from 7 to 25 engineers.
- Managed client communication and project governance across distributed teams.
